

0:00) Blessings to the heart, the mind, and the soul of your beings. I am Lady Master Natasha.
(0:09) Beloved ones, it is with the greatest of joy that we, the Council of Eight, interact with your
(0:15) beings in this manner.

For you have brought forth that which is fertile ground for our consciousness (0:24) as it were.
When you plant the seeds of questions, you open the doors for wisdom to enter therein. (0:35)
You open the doors for interaction between dimensions and consciousness of other experiences
(0:43) to interact with your being.

There is a very common, understandably common, and global (0:58) wondering about what life
is like when you are no longer in the form which you have identified with, (1:06) even though
you know it is your vehicle and you know you are spirit in a human form, (1:11) you have
identified with it to a large degree, and so you wonder what will you do without it. (1:17) Well,
just imagine in this moment that this form, you could put your finger through it, yes? Just (1:28)
imagine that this form could choose to be sitting solidly on a surface or could choose to sink
down (1:37) into the surface and begin to disappear as it were. This begins to give you a little bit
of (1:45) freedom ideas, freedom idea about how physical has what you call the limitations of
physics, (1:58) and yet physics are changing, are they not? They are almost always changing
because consciousness (2:05) as it elevates itself shifts its frequencies, and as it shifts its
frequencies the world around it (2:15) becomes different because the world around you is,
you've heard it many times, it is a mirror (2:26) for what is happening in your mental
consciousness.

Your mental consciousness (2:36) is that which takes from here and there and everywhere and
attempts to figure everything (2:42) out. That is the mind, it is thinking, thinking all of the time.
You wonder if you are made of (2:49) seven bodies, mental, physical, emotional, astral,
vibrational, spiritual, and soul, (2:58) where do all seven bodies go? Are you all of them? Are
you none of them? Some of you have heard that (3:04) when you are in the astral realm, let us
call it fourth dimension, because you have dropped the (3:11) physical form, let us call it third
dimensional form, you could live there potentially up to 200 (3:18) years in the way you count
time in third dimension before whatever form you are in begins to (3:29) disintegrate in some
way or another and you wonder what is occurring to you and who are you and where (3:34) are
you going and what is what is going on now and you have no answers because you have not
been (3:40) prepared for life on the astral level which we the council of eight have not been
working with you (3:47) to prepare you for life on the astral level.

We have been training and working with you to teach (3:55) you how to continually upgrade
your vibrational level because it is your vibrational level that (4:03) will determine the world
around you. If your vibrational level, beloveds, is one that wants (4:13) peace, that wants just to
be in meditation, that wants to sleep for eons or that wants to (4:21) have no more sound and
noise, that wants the quiet of space, that wants the isolation (4:30) of just self as it has
discovered self within or that wishes to merge with source as it has (4:42) discovered source,
you become that when you are no longer wearing or identifying with this, (4:53) the physical
form, you become that. So let us say you would lift out of your physical form (5:01) and there
perhaps would be a teacher, your guru, dressed in whatever garments you expect, (5:10)

speaking in whatever way you expect, providing chimes or bells or silence or the sounds of nature (5:22) or the twinkling of stars, whatever it is you expect on your vibrational level. (5:32) What you have trained yourself for, not what you hope, not what you hope will be true, (5:39) for that is part of you still not knowing yourself as God, as creator. There is nothing (5:47) like a good rousing out of the physical form to get you to know how well you have done or not (5:54) done, as it were, in becoming your creator self and owning the fact you are the creator self. (6:02) And this is just your vehicle.

Your body is just your house, your car, your limousine, your RV, (6:09) your yacht, your sailing ship, whatever it is you wish to call it. It is your navigational tool for (6:15) life. And yet when you are out of it, you still exist, beloveds.

You still exist. And depending (6:23) upon what religious persuasions you have been convinced of or what horrifying ideas you have (6:30) allowed to permeate your mind or what beneficial ideas you have focused upon and created as your (6:37) truth, you will then become and experience that. So if, for example, you have been a very religious (6:46) Baptist, as it were, and you got into some of the things that Baptists were not supposed to be doing, (6:59) and you never made that okay in your consciousness, you never forgave yourself or you never let go (7:05) of the thou shalt nots, then when you fall from this form, you will be prepared for scoldings and (7:17) reprobands or that which happens to one who did not follow the rules. You will create that kind (7:25) of reality for yourself. And so it is impossible, as it were, to say to any and all of you what your (7:33) world will be like when you are not in a physical form because you, Creator, are already creating it (7:39) while you are living this life. The purpose of living this life is to give yourself a beautiful (7:47) world, a beautiful world.

And are you not already creating that? Are you not, as a quote-unquote (7:55) global culture and civilization, not already experiencing things that should not be so? (8:04) Are you not having cars now that drive themselves? You just sit in and sit back (8:09) and it will take you where you want to go. Is not that a fourth or fifth or six-dimensional (8:14) consciousness? Are you not having technology to such an extent that you could not believe it ever (8:24) could be true? And we will not go into all of those things but prepare yourself for 2025 (8:31) for there will be more and more and more technological quote-unquote breakthroughs or (8:38) innovations. But why is that? Because the laws of physics have shifted on this quote-unquote planet (8:47) that you perceive yourselves living on in this world that you perceive yourselves living in (8:54) using the dating system of 2025, which is coming up in two, three days as it were, (9:02) the nomenclature system.

There are so many things in 2025, as you call it, that you will begin to (9:13) wonder what dimension are you living in? What life is it? What happens, beloved? The Bible said it, (9:23) yes. It was quoted that God said, or perhaps his favorite son, as it were, said, (9:30) in my father's house there are many mansions. Or God has said, in my house there are many mansions.

(9:39) Now what does that mean? That means there are so many different realities that exist. So when we (9:47) asked you the question, what is life? That was the lead-in for this. There are many different answers (10:01) to what is life.

For some, because Earth is magical, they shift back and forth between dimensions. (10:13) For some, they are in one dimension, perhaps not even visible to those who exist on Earth. (10:22) Perhaps some of you are dancing between them.

Sometimes you are visible, sometimes you are not. (10:28) Who's to say, if you are in your space and no one else is around, that you are no longer visible (10:40) to that dimension? Because there is no one to see you and tell you you are, perhaps you are shifting (10:49) in and out of other dimensions, as it were. The one through whom we speak was once doing a healing. (10:56) It was called reconnection healing on a couple who came to see her and her home. And (11:05) while the male part of the couple was on the bed, the massage bed, as it were, and the reconnection (11:13) energies were healing, the female was astounded by what she all of a sudden no longer saw. (11:21) She looked all around, she looked in the living room, while she was sitting, she looked in the (11:25) room next to that where the work was being held, she peered around the corners and doors, (11:30) for she no longer saw the one through whom we speak doing the healing.

Why would that be? (11:38) Because her energies had shifted into another reality, that is all. Was she truly still there (11:44) physically? She was, if you congealed her energy, still there, but she was shifted on an energy (11:50) level that those who were there could not see, could not perceive in that moment. But that was (11:56) interactive energy.

It did not mean that the one through whom we speak could no longer live in (12:01) this world, and the same is true for you. You can be shifting back and forth, rest assured that you (12:08) are. Sometimes you are in a little bit different frequency, sometimes you're in a greatly different (12:14) frequency.

There are many mansions in my father's house, as it were. There are many levels of (12:22) consciousness upon which you may exist. Sometimes you will feel the best you've ever felt, and you (12:31) are in a higher vibration, on a higher frequency, perhaps in a different dimension. And then sometimes (12:37) if you do not maintain, as it were, your conscious perspective and your emotional perspective and (12:43) your vibrational perspective, you quote-unquote slip back into something else, and you feel less (12:49) than or lower than. Perhaps you even feel grouchy, as it were, and you realize there has been a (12:55) discrepancy between what you were feeling and where you are now. But you are the one in charge.

(13:00) You are the one in charge to decide how you're going to experience life vibrationally.

(13:10) That is the key. Vibrationally.

And intentionally. Although yes, you may choose to experience life (13:21) unintentionally, but then what are you? You are caught up in the cycles of life, are you not? (13:25) Just simply living according to the cycles of nature. Whatever the outer world decides to create, (13:35) then you are influenced by that.

Now what of the different realities, whether you are a healer, (13:44) whether you are a gardener, whether you are an educator, whether you are a channeler, as it were, (13:53) what are the realities of this if you shift dimensions? (13:57) Is there always going to be a need for service? Will there always be a need for healers? (14:03) We say that question and those questions and questions like it are not necessary if you are (14:11) living your passions. It is

your passions and your fears that create what you are experiencing, (14:21) is it not? The upward spiraling energies and the downward spiraling energies. So if you're (14:28) choosing to live in misery, then perhaps you will overeat.

Perhaps you will create disease (14:34) in your physical form. Perhaps you will be out of a job and not be able to pay your bills. (14:39) Perhaps your friends will all move away and you'll be left alone and have no one to speak with.

(14:43) These are choices that you will have made. Let us say something cataclysmic happens (14:48) and it appears as though your world is created from the outer world. (14:57) Well, there could be many different points of view on the truth of that, (15:01) but the very bottom line is what will you do about it? How will you experience it? (15:05) What will you believe in? Will you become a victim or will you become a god? Will you stay a god? (15:13) That is the question of every second of every moment of your existence, is it not? (15:18) And if you choose to stay in that space, then certainly your vibrations are going to (15:25) quote-unquote rise in eloquence. Yes, rise in frequency. You are going to experience more things (15:33) than you have experienced before. They may befuddle you.

They may surprise you. They may (15:38) cause you to laugh. Who knows what? Because you are inviting them in.

(15:44) So, if healing is your passion, there will be those for whom being sick is a passion.

(15:53) There will be those for whom being catered to is a passion. If teaching is your passion, (16:01) there will be those who want to have the attention of a teacher, who want to make sure they are doing (16:10) things quote-unquote right, or who want to expand their consciousness more into the unknown (16:15) and want a guide to take them there.

If you are living your passion, beloveds, the vibrations (16:25) that you emanate will create the world that supports your passion, your heart song. (16:37) Can your passion change? Most definitely. Your heart song usually remains the same but can take (16:47) on deeper varieties, deeper colors, varied hues, can take on other notes, can stop sounding like (16:55) a single note and become orchestral as it were.

And because you are God, you choose to change your (17:02) heart song. Who are we, the council of eight, to say that you cannot? Namaste, beloveds, (17:09) into the heart, the mind, and the soul of your beings. So be it.
